Cleaning Instructions

Sur Last® is designed to be easy to maintain. It can be washed, or brushed off and rinsed. Proper care and cleaning is important to the life of all fabrics.

For normal care and cleaning add fifty (50) grams of mild soap (Woolite, Dreft, Ivory) to three and a half (3.5) litres of water which is less than 100 degrees Fahrenheit / 38 degrees Celsius. Clean fabric with "soft bristle brush". Rinse thoroughly with cold water and air dry.

For stubborn stains add maximum one quarter (1/4) cup of bleach to three and a half (3.5) litres of water. Spray on lightly to the fabric "face" (non-coated side). Do not soak fabric. Prolonged exposure to harsh chemicals can damage the coating (coated side) of the fabric. Rinse immediately. Do not leave on for more than two (2) minutes.

Cleaning with harsh cleaners (such as bleach) will require a retreatment (like 303 High Tech Fabric Guard) for restoring water repellency.
